

A colorful illustration of a landscape. In the top right corner, a bright yellow sun with rays is partially visible. Below it is a small white cloud. On the left, a large grey mountain range is shown with rain falling from a grey cloud above it. The rain falls onto a green hillside. A blue river flows from the base of the mountain down to a larger blue body of water on the right. A small cluster of green trees is on the right bank of the river. The sky is a light blue color.

The Water Cycle

Raindrops

Imagine you are one of these droplets.

You've fallen 2km to the ground, falling at speeds of up to 40mph!

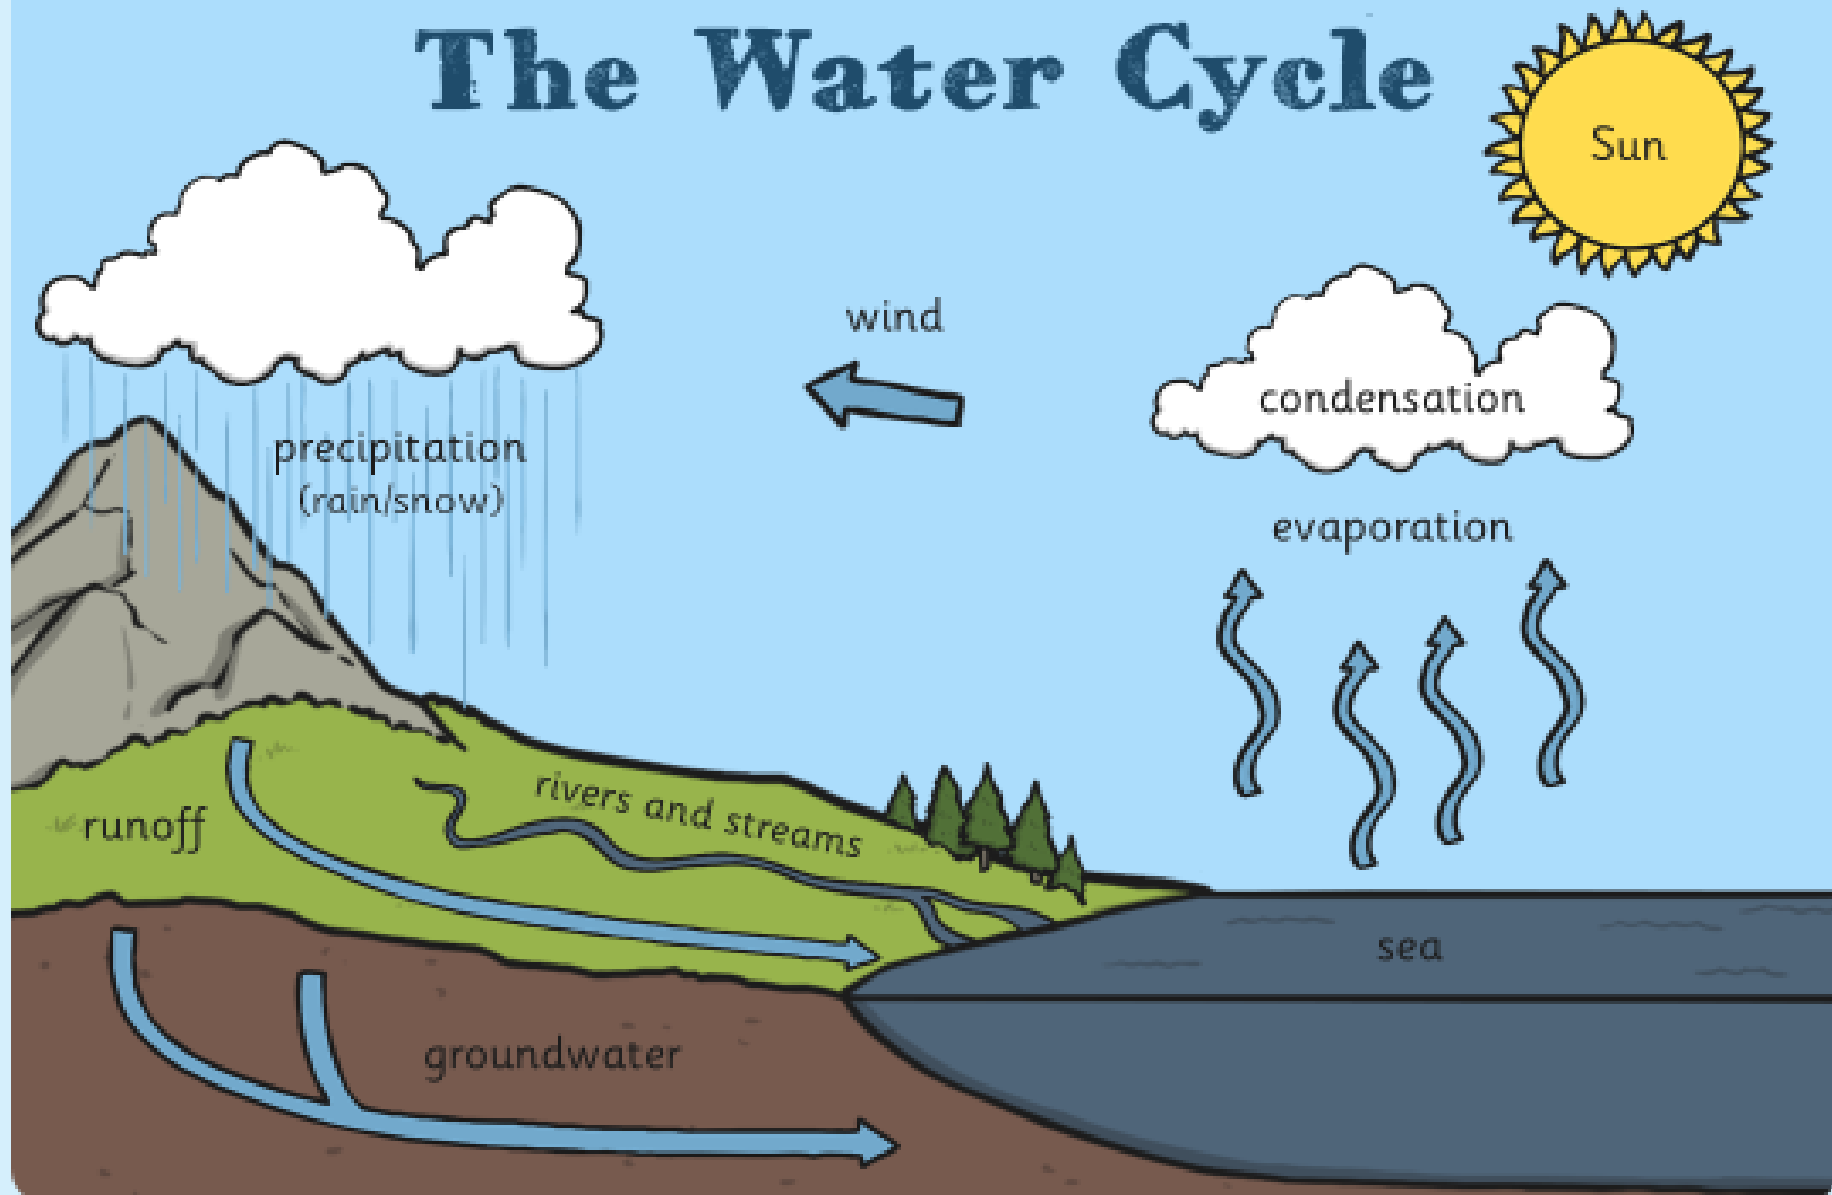

Where do you land?

What do you see?

What happens next?

The Water Cycle

Let's Go Around Again

It's a cycle – the same water keeps going around and around and around...

Who has been sharing your drink?
